

## **JENNY MOSS**

I've lived in Burwell for over thirty years, in a delightful cottage down at Judy's Hole, and have raised two daughters here. When they were young, I used to help at the primary school, and ended up on all sorts of committees such as Toy Library and Mothers and Toddlers. As the girls got older, I worked as a full-time computer system administrator/software engineer, but in the last few years have had a lot more free time and wanted to put some of it back into the community once again. Since I joined the Parish Council two years ago, my largest involvement has been in raising the profile of the delightful Parish Council owned Pauline's Swamp. I'm also on the Community, Sports, and Leisure group as part of my Parish Council duties. On a personal level, I'm a vegetarian of many years, love animals, knitting and sewing, reading, gardening, cooking, my family (I now have a small granddaughter as well). I fully respect the environment and try to live as such, not always easy in this day and age, and believe that small ripples make large waves.
